

Nutrition Information <small>Typical values when mixed with water</small>		Per 100g	Per 25g serving
Energy	kJ	1,502	376
	kcal	354	89
Protein		78g	19.5g
Carbohydrate		4g	1g
of which sugars		4g	1g
Fat		2.9g	0.7g
of which saturates		1.9g	0.5g
Fibre		0.5g	0.1g
Sodium		120mg	30mg
Digezyme® <small>(digestive enzymes)</small>		100mg	25mg
Lactospore® probiotics <small>(spores)</small>		200,000,000	50,000,000

Recommended use*: Mix 25g (approximately one 60cc measure[†]) with 250ml water or skimmed milk in a shaker or blender. Do not exceed the stated dose.

*recommended use based on a 75kg male.
[†]a measuring scoop is included in this container but may settle to the bottom during transit.

Guidance notice: This product is a food supplement and should be used in conjunction with food as part of a healthy balanced diet, not as a substitute for such. This product is not intended for use by persons under the age of 16. Keep out of reach of young children.

Typical amino acid profile for casein, egg and whey proteins (g/100g of protein)

Essential Amino Acids (EAA's)				Conditionally Essential Amino Acids (CEAA's)			Nonessential Amino Acids (NAA's)				
	Casein	Egg	Whey	Casein	Egg	Whey	Casein	Egg	Whey		
Isoleucine*	5.0	5.0	6.4	Arginine	3.4	4.54	2.1	Alanine	3.1	5.49	5.0
Leucine*	9.5	6.8	10.6	Cystine	0.7	1.88	2.2	Aspartic Acid	7.0	6.09	11.0
Lysine	7.8	4.64	9.6	Glutamic Acid	20.4	10.89	18.1	Glycine	1.8	2.89	1.4
Methionine	2.6	3.01	2.2	Histidine	2.8	1.67	1.7	Serine	5.0	6.07	4.6
Phenylalanine	4.7	4.94	3.0	Proline	9.7	2.92	5.5				
Threonine	4.2	3.41	6.7	Tyrosine	5.0	3.21	2.6				
Tryptophan	1.6	1.18	1.4								
Valine*	6.1	6.02	5.9								

*BCAA's Branch Chain Amino Acids

Contains: Milk, Egg, Gluten, Soya (from soya lecithin).

Ingredients: Protein blend (ultra filtered milk protein concentrate (80% micellar protein, 20% whey protein), egg white protein isolate, ultra filtered whey protein concentrate), peptide bonded glutamine (derived from wheat protein), cocoa powder (chocolate flavours only), carboxy methyl cellulose, flavouring substances, natural colourings (betanin (strawberry flavour only), beta carotene (banana and vanilla flavours only)), artificial sweeteners (acesulfame k, sucralose), Digezyme® enzyme complex (amylase, protease, cellulase, lactase, lipase), Lactospore® probiotics (bacillus coagulans), emulsifier (soya lecithin).

Store in a cool dry place away from direct sunlight.

reflex®

peptide fusion®

Protein blend guaranteed 33:33:33 ratio of egg white, micellar casein and whey protein

84
servings

Best Before: See Side

Flavour: See Lid

2.1kge

High protein sports nutrition food supplement with natural colourings, flavouring substances & artificial sweeteners.

peptide fusion® protein blend

peptide fusion® is ideal for those who want the benefits of multiple protein sources

There are no unnecessary gimmicks just the guaranteed 33:33:33 ratios of egg white, micellar casein and whey protein with the addition of healthy probiotics & glutamine peptides. **peptide fusion®** is made in accordance with ISO9001 quality control procedures and like all **reflex®** products comes with a full unconditional money back guarantee. We firmly believe it is the best protein blend you can buy today.

peptide fusion® contains micellar casein

Perhaps the least processed of all milk derived proteins, micellar casein is a very pure product which is highly sought after in the bodybuilding community. Skimmed milk is ultra filtered to provide undenatured micellar casein proteins without the use of acids or processing methods that could change the fragile micelle structures.

peptide fusion® contains bioactive ultra filtered whey protein concentrate

Our preferentially selected whey protein is derived from ultra filtered sweet dairy whey and fresh skimmed milk. It is very carefully processed at temperatures that preserve whey peptides and is spray dried with a lecithin coating to ensure easy mixing. Reflex Nutrition secure only batches that meet our strict criteria which account for higher levels of protein and lower levels of fat and lactose. Our whey protein is tested to ensure that all whey fractions are present in their undenatured form.

peptide fusion® contains egg white protein isolate

Up until very recently, egg white was the king of all proteins with a biological value of 100 (only whey beats it with a score of 104). Egg white protein is absorbed by the body at a medium rate of digestion providing all essential amino acids for growth and repair. The great thing about egg white protein is that it contains virtually no fat or carbohydrate. The egg white used in **peptide fusion®** is of the highest quality, made from certified European eggs that are guaranteed free from salmonella.

Environmental statement

All Reflex Nutrition facilities are powered by 100% green renewable electricity. The container and lid used for this product are made from HDPE which is widely recyclable.

reflex quality

Reflex Nutrition products are made at our state of the art factory in the UK in accordance with ISO 9001 procedures. We also randomly drug test batches of **peptide fusion®** along with all Reflex Nutrition products in accordance with ISO 17025.
